EXPERIENCE

Software Developer · SGK (TC Sosyal Güvenlik Kurumu)
Jul 2024 – Present
- Built new front-end modules using React & Micro Frontends.
- Delivered 40+ reusable UI components published as an npm package, improving dev efficiency.
- Managed state with Redux & Formik; integrated APIs with Axios.
- Applied component testing (Jest, Storybook); collaborated with UX team via Figma.
- Contributed in Agile/Scrum sprints, ensuring delivery on time.

Full-Stack Developer · Turboard (E-Kalite Yazılım)
Nov 2022 – Jul 2024
- Developed reusable components in React & Vue, resolved 500+ bugs.
- Developed chart components using Echarts.
- Integrated REST APIs with Django; wrote unit tests with Vitest.
- Participated in Agile ceremonies (sprint reviews, retrospectives).

Intern Developer · Turboard & Medyasoft IT Group
2021 – 2022
- Supported full-stack projects with Vue, Django, Angular, .NET, PostgreSQL.
- Fixed bugs and gained hands-on experience in both Agile & Waterfall processes.

PROJECTS

- **Task Management System | Spring Boot, PostgreSQL, JWT, React**
  Full-stack app with role-based access, authentication, and task tracking. [GitHub]
- **Finance App | Spring Boot, React Native, PostgreSQL, JWT**
  Finance tracker mobile app for analyzing personal financial transactions.
- **Personal Website | React.js → merveartut.com**

EDUCATION

BSc Computer Engineering · Gazi University
2017 – 2023
